I wish to present my transcriptions of the loved ones buried at Mt. Carmel Church Cemetery. Pole Ridge Road is located in section 34 between Blue Creek Rd. and Pleasant Ridge Rd. (TR 182). Accessible from SR 65, south on Blue creek to Route 182, turn right. Follow this road until you see Mt. Carmel Community Church on left side of road. Cemetery located behind church; there is ample parking next to church. This church was listed in local book about the area, printed in 1880's, as a Methodist Episcopal Church, co-founded and built by brothers, John & Adam Schooley, after 1876. The first burial in this cemetery being Adam Schooley took place in 1878. There is no mention of this cemetery in the 1876 Atlas of Hocking Co. All information transcribed from memorial stones will appear as regular text. All information written in brackets[] will indicate observations, personal knowledge, and /or descriptions of conditions and not information inscribed on stones. Each row of stones were read starting nearest road, working towards back and numbering each row from right to left. This bearing would be from road, facing church and cemetery. There is an informational plaque attached to the church sign, reminding folks that their contributions to help maintain the cemetery are appreciated and where donations can be sent. I have the address and will give it to anyone interested in contributing to the upkeep of this private cemetery. Please do not request the address to make inquiries as this person is probably volunteering her time as secretary and not prepared to do surname searches.

This cemetery is located on a relatively level area, adjacent to, and behind the church. It is nicely maintained and most of the stones, with few exceptions, are easily read. There are about 200 individuals that I have knowledge of buried here. As always, I am solely responsible for all transcriptions contained in this article. I have been careful, but make no warranties to being 100% accurate. Use this information as a tool, but don't substitute it for state or county records and documentation, when available. If you have any information that improves upon the transcriptions provided here, please let me know and I will update this article. R.M.Sizelove, Sr. Revised 06 Jan., 2000. New information given to me, revised 22 April, 2000, revised 31 July, 2000. My last visit to this cemetery was on 06 Jan., 2000. I give you permission to copy material in this report for private family research, however, my intentions are not to give up my copy rights to these transcriptions or the photo documentation connected to it. Note:

Because of the layout of this cemetery, the first row doesn't start at the road. It starts near the lower back corner of the cemetery. The second row is actually the first full row starting near the road.
